Dear Mr. Kuehne,

We would like to thank you for meeting with us and sharing your software project requirements for TSTC-STEAM Labs. We have put together a Software project proposal for your approval. Please feel free to ask any questions.

## **Introduction**

Bojorquez Brands is an IT company which develops Software projects. We have been providing software solutions over the past year to multiple business sectors. Our company is based in the USA, but our services are provided worldwide. Our approach is to capture our client's business requirements and develop various customized software to meet their business needs.

## **Proposal for TSTC-STEAM Labs**

### **Overview**

Today, every business in the world needs a dedicated software to run operations successfully and increase productivity. Data plays a major role in any organization. Our company ensures our customers reliability and data security. With a fast growing business, it becomes extremely challenging to maintain the records of sales, inventory and taxes, manually. The software provides an automated system which works on a real time basis for companies. For any business, software is now a prerequisite to performing day-to-day tasks.

### **Scope**

Colleges are undoubtedly one of the most overwhelming businesses with a high level of processes that if done correctly, can ensure a smooth and profitable business. At Bojorquez Brands we provide software solutions, through automated tools, to ensure your business runs smoothly. This lessens the management burden and provides better sales as well as high customer service quality.

## Technical Requirements

### Project Goals

- COPY- Information about STEAM programs, showcase available programs, program schedules
- FORMS- take in applicant's information (with data collection spreadsheet)
- E-COMMERCE- a way to receive donations from our contributors
- IMAGE OPTIMIZATION- image gallery of our campers doing activities throughout the facility

### Project Requirements

## Timeline

The project will take approximately 6-8 weeks, from the date of confirmation.

The timeline and process steps are listed below:

### **First Step:** week 1

#### **Data Analysis**

In-depth analysis of the Data.

### **Second Step:** week 2

#### **Demonstration**

Create and show a demo of the outcome of the software.

### **Third Step:** week 3

#### **Development**

Software Coding is done.

### **Fourth Step:** week 4

#### **Training**

Staff training on how to run the software.

### **Fifth Step:** week 5

#### **Deployment**

Activating the system and re-training of the staff, if needed.

### **Sixth Step:** week 6

#### **Support**

Checking for any bugs and errors; see if any fixing needs to be done.

## Payment Terms

Upon signing the proposal, 20% of the total payment must be deposited.

**Pricing**

Our fee for the whole project from the first step to the last one will be **\$2,750**. The breakdown is provided below:

SOFTWARE DEVELOPMENT	<b>\$1,125</b>
LAUNCH AND SUPPORT	<b>\$875</b>
TRAINING	<b>\$750</b>

**Warranty & Limitation of Liability**

We provide a 365 day warranty, from the date of acceptance of our software proposal. During this time, if the software malfunctions, or doesn't operate in any way, then we take the necessary steps to fix the issue and ensure that the Software operates according to the specifications. However, our services remain at your disposal for any future assistance.
